Notes:

- Median family income is not provided by PopStats, so 2010 median household income was used and converted to median family income using the 2000 Census ratio between family and household income.
- Extrapolated median family income data unavailable for tracts 231400, 283400, 283700, 290100, 290400, 292700, 311100, 311500, 330400, 330500, 350500, 440500, 561200, 561300, 581000, 640200, and 760900. Where Census or PopStats data were unavailable, socioeconomic factors were interpolated from adjoining tracts with the exception of Weighted Average ISAT Performance at Attendance Area Schools.
- Figures for educational attainment represent the number of people over the age of 25 in the Census tract at the given educational attainment level. Educational attainment score based on a composite of educational attainment for the given Census tract.
- Tiers are determined by a 6-factor socioeconomic score based on Census tract median family income, education, percentage of owner-occupied homes, percentage of single-parent households, percentage of the population speaking a language other than English, and Weighted Average ISAT Performance at Attendance Area Schools.
- Tiers represent equal quartiles by 6-factor socioeconomic score based on the number of school-age children in the city of Chicago. Children are assigned 6-factor socioeconomic scores based on the Census tract in which they reside.
- Census tracts with a 6-factor socioeconomic score below the 25th percentile (0.34275) are assigned to tier 1, between the 25th and 50th percentile (0.34376 to 0.47988) are assigned to tier 2, between the 50th and 75th percentile (0.48026 to 0.64902) are assigned to tier 3, and above the 75th percentile (0.64913) are assigned to tier 4.
- Number of school-age children determined by the number of children in the Census tract between the ages of 5 and 18.
